

What to do in case of injuries

Keep calm !

In principle:

- Stopping bleeding
- Relieve pain
- Prevent infections

General measures:

- Do not remove foreign bodies that have penetrated the wound
- Do not wash out wounds
- Do not use ointments, sprays etc. without medical advice
- Cool burn / scald briefly
- PAKET & emergency call if necessary

Wound care as required, e.g:

Druckverband

Fingerkuppenverband

Knie-/Ellenbogenverband
